With Crystal Coast Tech's Data Protection Services you can STAY in business knowing your computer data is stored securely in a remote location and is available for retrieval 24x7x365 anywhere in the world where there is internet access. In the event of a server or workstation failure, fire, theft, natural disasters such as hurricanes or floods, your data is protected.

Crystal Coast Tech will set up your backup software, maintain the most efficient backup schedule to fit your business needs and although we are not able to read your data because it is securely encrypted, we will monitor your backups daily to make sure they are successful.

Home online backup solutions are also available. Call for details.

\*Software will only be installed on PCs necessary to access data throughout the network.
